

**For shifts with protocols, the expectation is that protocols are completed during the shift (ideally at the start of the shift prior to CT/MR reporting).*

**Radiologists are responsible to assign any cases to their personal worklist which are not reported by the end of the shift.*

THP ROTATIONS — TUES AFTER STAT MON					
Rotation	Day of Week	TASK	UNREAD TIME	WORKLIST	COMMENTS
CT ACI AM CV/MH	Tues after Stat Mon	CT all other including CTA H/N except hyperacute stroke for respective site	08:00 - 11:45	CVH/MH ACI CT	Includes outpt urgent (mainly PE studies). Studies performed after 07:00 (unread time) are the responsibility of the ACI rad, unless contacted by the referring MD prior to 07:59 in which case, the overnight/early am rad is responsible for providing a final report. Q ACI CTs are reported by the CT ACI CV rotation (included on the CV ACI CT list).
		CT ED/IP HRL (tagged to HRL) prelims for respective site	08:00 - 11:45	CVH/MH ACI CT	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of rad assigned to CT HRL the upcoming Thursday. Tag to CT HRL if not already tagged.
		CT ED/IP Protocol	08:00 - 11:59	EPIC	For respective site; clear up to end of shift
		CT ED/IP VIR Run off and aortic cases with endografts (tagged to VIR) prelims for respective site	08:00 - 11:45	CVH/MH ACI CT	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of VIR rad (Final to be issued no later than 17:00). VIR rad available for backup (no tradeback). Aortic cases without an endograft are responsibility of diagnostic rads irrespective of how tagged.
		CT Head	Prev Day 22:00 to Current Day 11:45	CVH/MH ACI CT	
		CT IP (except CT Heads) before 8AM final reports for respective site	Prev Day 19:00 - Current Day 07:59	CVH/MH ACI CT	Late/Overnight/Early rad responsible for providing a prelim. Final reports responsibility of ACI-AM rad.
		CTA Hyperacute Stroke for respective site	08:00 -11:59 (Start Time)	CVH/MH ACI CT	Responsible if exam begins prior to shift end (unread time will be > end of shift) unless responsibility verbally handed over rad to rad. Verbal report must be provided to physician +/- prelim in FFI"
		ER/IP Consultations	08:00-11:59	Upon Request for respective site	May include ER/IP CT/XR rad checks, protocol checks, urgent report requests/consults. Also includes OP P1/P2 checks (e.g., OP CT PE) — reported by rad performing the check if stat/ACI conversion required; if conversion not immediate and case already assigned to CT B list, read by Rad of the Day on trade-back model.
CT ACI PM CV/MH	Tues after Stat Mon	XR ACI Overnight for respective site	Prev Day 20:00 - 23:59 (Midnight)	CVH ACI Xray/ MH ACI Xray	Q ACI XR goes with MH ACI (included on the MH ACI XR list).
		CT all other including CT Head and CTA H/N (except hyperacute stroke for respective site)	11:46 - 15:45	CVH/MH ACI CT	Excluding breast cases. Q ACI CTs are reported by the CT ACI CV rotation (included on the CV ACI CT list).
		CT ED/IP HRL (tagged to HRL) prelims for respective site	11:46 - 15:45	CVH/MH ACI CT	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of rad assigned to CT HRL the upcoming Thursday. Tag to CT HRL if not already tagged.
		CT ED/IP Protocol	12:00-15:59	EPIC	For respective site; clear up to end of shift
		CT ED/IP VIR Run off and aortic cases with endografts (tagged to VIR) prelims for respective site	11:46 - 15:45	CVH/MH ACI CT	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of VIR rad (Final to be issued no later than 17:00). VIR rad available for backup (no tradeback). Aortic cases without an endograft are responsibility of diagnostic rads irrespective of how tagged.
		CTA Hyperacute Stroke for respective site	12:00 -15:59 (Start Time)	CVH/MH ACI CT	Responsible if exam begins prior to shift end (unread time will be > end of shift) unless responsibility verbally handed over rad to rad. Verbal report must be provided to physician +/- prelim in FFI"
		ER/IP Consultations	12:00-15:59	Upon Request for respective site	May include ER/IP CT/XR rad checks, protocol checks, urgent report requests/consults. Also includes OP P1/P2 checks (e.g., OP CT PE) — reported by rad performing the check if stat/ACI conversion required; if conversion not immediate and case already assigned to CT B list, read by Rad of the Day on trade-back model.
		XR ACI Mid-day for respective site	Current Day 11:00-12:59	CVH ACI Xray/ MH ACI Xray	Q ACI XR goes with MH ACI (included on the MH ACI XR list). Includes QHC IP cases and ALL THP OP cases tagged to ACI. Also includes IP FL (e.g., ERCP, retrogrades) based on unread time.
CT OP B#	Tues after Stat Mon	CT B#	Prev Fri to End of Stat Mon	CT B#	Protocols as assigned, including stray protocols from prior shifts
MRI OP	Tues after Stat Mon	MRI M#	As per Assignment (See note in LB)	MRI M#	Time cut-off is by START TIME (NOT Unread Time); Protocols as assigned, including stray protocols from prior shifts
THP NUCS AM	Tues after Stat Mon	BMD	Assigned	Assigned/ THP BMD	
		NUCS AM	Assigned (Includes Prev Day Non-urgent IP after 15:45)	Assigned/ THP Nuclear Medicine	If assigned weekend/ Stat Day cases, Monday/post-stat day rad to divide equally amongst M,T, W THP Nucs AM Rads
		US ACI THP	Current Day 07:00-11:45	THP ACI US	Also includes QHC cases tagged as ACI
		US ED/IP questions	08:00 -12:00	Upon Request	Includes all ED/IP US checks and consults
		XR ACI THP (MCQ)	Current Day 02:00-05:29	THP ACI Xray	Includes QHC IP cases and ALL THP OP cases tagged to ACI. Also includes IP FL (e.g., ERCP, retrogrades) based on unread time.
THP NUCS PM	Tues after Stat Mon	B or M Half List		CT B#h/ M#h	
		BMD	Assigned	Assigned/ THP BMD	
		NUCS Cardiology	Epic Rad Cardiac Reporting Worklist		
		NUCS PM	Assigned	Assigned/ THP Nuclear Medicine	If assigned weekend cases,Monday/ post-stat rad to divide equally amongst M,T, W THP Nucs PM Rads
		XR ACI THP (MCQ)	Current Day 15:00-15:45	THP ACI Xray	Includes QHC IP cases and ALL THP OP cases tagged to ACI. Also includes IP FL (e.g., ERCP, retrogrades) based on unread time.

**For shifts with protocols, the expectation is that protocols are completed during the shift (ideally at the start of the shift prior to CT/MR reporting).*

**Radiologists are responsible to assign any cases to their personal worklist which are not reported by the end of the shift.*

THP ROTATIONS — TUES AFTER STAT MON					
Rotation	Day of Week	TASK	UNREAD TIME	WORKLIST	COMMENTS
RAD OF THE DAY	Tues after Stat Mon	Backup for on-site coverage		Upon Request	Backup in the event of rad illness and on-site coverage cannot be alternatively arranged. Will backfill rad-of-the day tasks.
		Consults on Outside Imaging - Non-Urgent	Prev Day	Upon Request	All routine consult requests. Outside images/report must be uploaded
		Consults on Outside Imaging - Urgent	Same Day 08:00 - 15:30	Upon Request	Must state urgent in request. Outside images/report must be uploaded
		Outpatient related inquiries	08:00 -16:00	Upon Request	Includes: Clinician rad discussion request, clerical questions, technologist questions, image checks for OP CT/US except P2 OP CT (which goes to CT ACI). (Biopsy protocolling part of UsBx rotations.)
		Prostate MRI fusion Bx Consults		Assigned	Can be swapped to a prostate MRI rad like all other workload swaps if required
		Un/misassigned cases	Discovery time Prev Day 14:00 - Current Day 13:59	Upon Request	
		Urgent Outpatient reads	08:00 -15:30	Upon Request	Trade-back model. Includes OP PE scans if converted from B list to stat reporting. P2 OP CT checks (e.g., OP CT PE) covered by CT ACI and reported by ACI if stat/ACI conversion occurs prior to B list assignment.
		US ACI THP	Current Day 11:46-15:45	THP ACI US	Also includes QHC cases tagged as ACI
		US ED/IP questions	12:00-16:00	Upon Request	
THP MRI ACI	Tues after Stat Mon	MRI Checks/Questions	08:00 -16:00	Upon Request	May include OP/ER/IP rad checks, protocol checks. (Urgent OP report requests, second opinion reports/ consults go to Rad of The Day)
		MRI ED/IP	Prev Day 14:30 - Current Day 14:29	THP ED/IP MR	
		MRI ED/IP Protocols routed to rad	Prev Day 15:30 - Current Day 15:29	EPIC	
VIR MH	Tues after Stat Mon	CTA ED/IP for respective site	Same Day	THP CT VIR	1. Unread time Weekday 07:00-15:45 — same-day VIR rad at the site performing the case (report by EOD). 2. Unread time Weekday 15:46-07:00 (next day) — rad on the VIR shift the day following the case at the site performing the case (final report by 09:30); Friday cases reported by the Sat on-call VIR rad. 3. Unread time Weekend 07:00-06:59 — rad on the VIR shift following the case (on-call on Sunday or STAT, or VIR rad at site where case was performed on a Monday; final report by 09:30).
		CTA OP for respective site	Prev Day	THP CT VIR	
		VIR Procedures for respective site	Same Day	None	
		XR Fracture Clinic	Prev Fri 07:00-10:15	THP Fracture Clinic	
VIR CV	Tues after Stat Mon	CTA ED/IP for respective site	Same Day	THP CT VIR	1. Unread time Weekday 07:00-15:45 — same-day VIR rad at the site performing the case (report by EOD). 2. Unread time Weekday 15:46-07:00 (next day) — rad on the VIR shift the day following the case at the site performing the case (final report by 09:30); Friday cases reported by the Sat on-call VIR rad. 3. Unread time Weekend 07:00-06:59 — rad on the VIR shift following the case (on-call on Sunday or STAT, or VIR rad at site where case was performed on a Monday; final report by 09:30).
		CTA OP for respective site	Prev Day	THP CT VIR	
		VIR Procedures for respective site	Same Day	None	
		XR Fracture Clinic	Prev Fri 10:16-EOD	THP Fracture Clinic	
THP REPORTING PM After Stat Monday	Tues after Stat Mon	B or M Half List		CT B#h/ M#h	
		CT HS THP	Stat Monday Cases	THP CT HS	
		CT HS THP Weekend	Saturday All Day	THP CT HS	
		US OP Diag THP (MCQ)	Stat Monday Cases	THP OP DIAG US	Excluding breast cases; weekend/stat day breast cases reported by Rad on OB+Mammo Wednesday
		XR OP THP (MCQ) Weekend	Sat All Day, Sun All Day, Stat Mon All Day	THP OP Xray	Includes OP FL (e.g., ERCP, retrogrades) based on unread time.
		XR Fracture Clinic Weekend	Sat All Day, Sun All Day, Stat Mon All Day	THP Fracture Clinic	

**For shifts with protocols, the expectation is that protocols are completed during the shift (ideally at the start of the shift prior to CT/MR reporting).*

**Radiologists are responsible to assign any cases to their personal worklist which are not reported by the end of the shift.*

CVH BASED ROTATIONS — TUES AFTER STAT MON					
Rotation	Day of Week	TASK	UNREAD TIME	WORKLIST	COMMENTS
CV FLUORO AM TUESDAY	Tues after Stat Mon	CT HS THP Weekend	Sunday All Day	THP CT HS	
		Fluoro CV	AM Cases	Assigned/ CVH Fluoro	Only includes fluoro cases performed by/under the rad assigned to the site-specified FL suite. FL cases performed by other services reported with OP or ACI XR as per worklist.
		RAD ON SITE AM CV	08:00-11:59	Upon Request	Responsibilities include: On site coverage of contrast reactions; US marking (if US BX rad not available); any other issue requiring onsite rad presence
		XR ACI THP (MCQ)	Current Day 05:30-09:59	THP ACI Xray	Includes QHC IP cases and ALL THP OP cases tagged to ACI. Also includes IP FL (e.g., ERCP, retrogrades) based on unread time.
CV FLUORO PM TUESDAY	Tues after Stat Mon	CT HS THP	Prev Fri 00:00-15:59	THP CT HS	On Tue after stat Mon, previous WeekDay is Fri (not Mon).
		Fluoro CV	PM Cases	Assigned/ CVH Fluoro	Only includes fluoro cases performed by/under the rad assigned to the site-specified FL suite. FL cases performed by other services reported with OP or ACI XR as per worklist.
		RAD ON SITE PM CV	12:00-16:00	Upon Request	Responsibilities include: On site coverage of contrast reactions; US marking (if US BX rad not available); any other issue requiring onsite rad presence
		US OP Diag THP (MCQ)	Prev Fri 12:00-14:59	THP OP DIAG US	Excluding breast cases. On Tues after stat Mon, previous WeekDay is Fri (not Mon).
		US OP Diag THP (MCQ) Weekend	Sunday All Day	THP OP DIAG US	
CV US AM	Tues after Stat Mon	US BX CV	AM Cases	Assigned/ CVH US Procedures	Includes biopsy protocolling requests and US marking
		US OP Diag THP (MCQ)	Prev Fri 10:00-11:59	THP OP DIAG US	Excluding breast cases. On Tue after stat Mon, previous WeekDay is Fri (not Mon).
		XR OP THP (MCQ)	Current Day 07:00-09:59	THP OP Xray	Includes OP FL (e.g., ERCP, retrogrades) based on unread time.
CV US PM	Tues after Stat Mon	B or M Half List		CT B#h/ M#h	
		US BX CV	PM Cases	Assigned/ CVH US Procedures	Includes biopsy protocolling requests and US marking
		XR OP THP (MCQ)	Current Day 10:00-11:29	THP OP Xray	Includes OP FL (e.g., ERCP, retrogrades) based on unread time.
CV Breast Imaging	Tues after Stat Mon	Breast Consults	Prev Day/As per Assignment	Assigned	If assigned a consult that you reported at an outside facility, trade with another breast rad.
		Breast Recall CV	Same Day	Assigned	
		Breast Stereo CV	Same Day	Assigned	If only 1 stereo, replacement US BX usually scheduled at 08:00
		Breast US BX CV	Same Day	Assigned/ CVH US Procedures	
		Mammo Screening THP	Prev Day/As per Assignment	Assigned; CVH Mammo; QHC/MH Mammo	
		US Breast W/O Mammo CV	Prev Fri	C US Breast	Same-day US breast cases requiring rad check go to 'US Breast Requiring Rad Check'
		US Breast with Mammo THP	Prev Day/As per Assignment	QHC/ MH US Breast; C US Breast	
		US Breast Requiring Rad Check	Same Day	C US Breast	Cases: US breast pre-biopsy scans, IP/ER cases, palpable AOC cases (procedures + recalls covered by their own tasks)

**For shifts with protocols, the expectation is that protocols are completed during the shift (ideally at the start of the shift prior to CT/MR reporting).*

**Radiologists are responsible to assign any cases to their personal worklist which are not reported by the end of the shift.*

MH BASED ROTATIONS — TUES AFTER STAT MON					
Rotation	Day of Week	TASK	UNREAD TIME	WORKLIST	COMMENTS
MH FLUORO AM	Tues after Stat Mon	CT HS THP	Prev Fri 16:00 - EOD	THP CT HS	On Tue after stat Mon, previous WeekDay is Fri (not Mon).
		Fluoro MH	AM Cases	Assigned/ MH Fluoro	Only includes fluoro cases performed by/under the rad assigned to the site-specified FL suite. FL cases performed by other services reported with OP or ACI XR as per worklist.
		RAD ON SITE AM MH	08:00-11:59	Upon Request	Responsibilities include: On site coverage of contrast reactions; US marking (if US BX rad not available); any other issue requiring onsite rad presence
		US OP Diag THP (MCQ)	Prev Fri 07:00-09:59	THP OP DIAG US	Excluding breast cases. On Tue after stat Mon, previous WeekDay is Fri (not Mon).
		US OP Diag THP (MCQ) Weekend	Saturday All Day	THP OP DIAG US	Excluding breast cases; weekend/stat day breast cases reported by Rad on OB+Mammo Wednesday
		XR ACI THP (MCQ)	Current Day 10:00-10:59	THP ACI Xray	Includes QHC IP cases and ALL THP OP cases tagged to ACI. Also includes IP FL (e.g., ERCP, retrogrades) based on unread time.
MH FLUORO PM	Tues after Stat Mon	B or M Half List	As per Assignment	CT B#h/ M#h	
		Fluoro MH	PM Cases	Assigned/ MH Fluoro	Only includes fluoro cases performed by/under the rad assigned to the site-specified FL suite. FL cases performed by other services reported with OP or ACI XR as per worklist.
