

**For shifts with protocols, the expectation is that protocols are completed during the shift (ideally at the start of the shift prior to CT/MR reporting).*

**Radiologists are responsible to assign any cases to their personal worklist which are not reported by the end of the shift.*

REPORTING RESPONSIBILITIES BY TASK				
TASK	TIME (UNREAD TIME)	Rotation Day	Rotation Name	COMMENTS
B or M Half List	As per Assignment	Mon after Stat Fri	MH FLUORO PM	
	None		QHC General Imaging	
			CV US PM	
			MH US PM	
			THP NUCS PM	
			THP REPORTING PM After Stat Friday	
Backup for on-site coverage		Mon after Stat Fri	RAD OF THE DAY	Backup in the event of rad illness and on-site coverage cannot be alternatively arranged. Will backfill rad-of-the day tasks.
BMD	Assigned	Mon after Stat Fri	THP NUCS AM	
			THP NUCS PM	
Breast Consults	Prev Day/As per Assignment	Mon after Stat Fri	CV Breast Imaging	If assigned a consult that you reported at an outside facility, trade with another breast rad.
			QHC Breast Imaging	If assigned a consult that you reported at an outside facility, trade with another breast rad.
Breast Recall CV	Same Day	Mon after Stat Fri	CV Breast Imaging	
Breast Recall QHC + MH	Same Day	Mon after Stat Fri	QHC Breast Imaging	
Breast Stereo CV	Same Day	Mon after Stat Fri	CV Breast Imaging	If only 1 stereo, replacement US BX usually scheduled at 08:00
Breast Stereo QHC	08:00, 09:00 Booking times	Mon after Stat Fri	QHC Breast Imaging	Morning Stereo biopsies. On a Thursday, one of these is replaced by MR Breast Bx.
Breast US BX CV	Same Day	Mon after Stat Fri	CV Breast Imaging	
Consults on Outside Imaging - Non-Urgent	Prev Day	Mon after Stat Fri	RAD OF THE DAY	All routine consult requests. Outside images/report must be uploaded
Consults on Outside Imaging - Urgent	Same Day 08:00 - 15:30	Mon after Stat Fri	RAD OF THE DAY	Must state urgent in request. Outside images/report must be uploaded
CT all other including CT Head and CTA H/N (except hyperacute stroke for respective site)	11:46 - 15:45	Mon after Stat Fri	CT ACI PM CV/MH	Excluding breast cases. Q ACI CTs are reported by the CT ACI CV rotation (included on the CV ACI CT list).
CT all other including CTA H/N except hyperacute stroke for respective site	08:00 - 11:45	Mon after Stat Fri	CT ACI AM CV/MH	Includes outpt urgent (mainly PE studies). Studies performed after 07:00 (unread time) are the responsibility of the ACI rad, unless contacted by the referring MD prior to 07:59 in which case, the overnight/early am rad is responsible for providing a final report. Q ACI CTs are reported by the CT ACI CV rotation (included on the CV ACI CT list).
CT B#	Prev Thurs to End of Sunday	Mon after Stat Fri	CT OP B#	Protocols as assigned, including stray protocols from prior shifts
CT ED/IP HRL (tagged to HRL) prelims for respective site	08:00 - 11:45	Mon after Stat Fri	CT ACI AM CV/MH	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of rad assigned to CT HRL the upcoming Thursday. Tag to CT HRL if not already tagged.
	11:46 - 15:45		CT ACI PM CV/MH	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of rad assigned to CT HRL the upcoming Thursday. Tag to CT HRL if not already tagged.
CT ED/IP Protocol	08:00 - 11:59	Mon after Stat Fri	CT ACI AM CV/MH	For respective site; clear up to end of shift
	12:00-15:59		CT ACI PM CV/MH	For respective site; clear up to end of shift
CT ED/IP VIR Run off and aortic cases with endografts (tagged to VIR) prelims for respective site	08:00 - 11:45	Mon after Stat Fri	CT ACI AM CV/MH	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of VIR rad (Final to be issued no later than 17:00). VIR rad available for backup (no tradeback). Aortic cases without an endograft are responsibility of diagnostic rads irrespective of how tagged.
	11:46 - 15:45		CT ACI PM CV/MH	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of VIR rad (Final to be issued no later than 17:00). VIR rad available for backup (no tradeback). Aortic cases without an endograft are responsibility of diagnostic rads irrespective of how tagged.
CT Head	Prev Day 22:00 to Current Day 11:45	Mon after Stat Fri	CT ACI AM CV/MH	
CT HS THP	Prev Thurs 00:00-15:59	Mon after Stat Fri	CV OB + FLUORO AM/PM	Weekend/Stat day cases assigned separately. On Mon after stat Fri, previous WeekDay is Thurs (not Fri).
	Prev Thurs 16:00 - EOD		MH FLUORO AM	
	Stat Friday Cases		THP REPORTING PM After Stat Friday	
CT HS THP Weekend	Saturday 00:00-12:59	Mon after Stat Fri	MH FLUORO AM	
	Saturday 13:00-EOD		CV OB + FLUORO AM/PM	
CT IP (except CT Heads) before 8AM final reports for respective site	Prev Day 19:00 - Current Day 07:59	Mon after Stat Fri	CT ACI AM CV/MH	Late/Overnight/Early rad responsible for providing a prelim. Final reports responsibility of ACI-AM rad.
CTA ED/IP for respective site	Same Day	Mon after Stat Fri	VIR CV	1. Unread time Weekday 07:00-15:45 — same-day VIR rad at the site performing the case (report by EOD). 2. Unread time Weekday 15:46-07:00 (next day) — rad on the VIR shift the day following the case at the site performing the case (final report by 09:30); Friday cases reported by the Sat on-call VIR rad. 3. Unread time Weekend 07:00-06:59 — rad on the VIR shift following the case (on-call on Sunday or STAT, or VIR rad at site where case was performed on a Monday; final report by 09:30).

**For shifts with protocols, the expectation is that protocols are completed during the shift (ideally at the start of the shift prior to CT/MR reporting).*

**Radiologists are responsible to assign any cases to their personal worklist which are not reported by the end of the shift.*

REPORTING RESPONSIBILITIES BY TASK				
TASK	TIME (UNREAD TIME)	Rotation Day	Rotation Name	COMMENTS
CTA ED/IP for respective site	Same Day	Mon after Stat Fri	VIR MH	1. Unread time Weekday 07:00-15:45 — same-day VIR rad at the site performing the case (report by EOD). 2. Unread time Weekday 15:46-07:00 (next day) — rad on the VIR shift the day following the case at the site performing the case (final report by 09:30); Friday cases reported by the Sat on-call VIR rad. 3. Unread time Weekend 07:00-06:59 — rad on the VIR shift following the case (on-call on Sunday or STAT, or VIR rad at site where case was performed on a Monday; final report by 09:30).
CTA Hyperacute Stroke for respective site	08:00 -11:59 (Start Time)	Mon after Stat Fri	CT ACI AM CV/MH	Responsible if exam begins prior to shift end (unread time will be > end of shift) unless responsibility verbally handed over rad to rad. Verbal report must be provided to physician +/- prelim in FFI"
	12:00 -15:59 (Start Time)		CT ACI PM CV/MH	Responsible if exam begins prior to shift end (unread time will be > end of shift) unless responsibility verbally handed over rad to rad. Verbal report must be provided to physician +/- prelim in FFI"
CTA OP for respective site	Prev Day	Mon after Stat Fri	VIR CV	
			VIR MH	
ER/IP Consultations	08:00-11:59	Mon after Stat Fri	CT ACI AM CV/MH	May include ER/IP CT/XR rad checks, protocol checks, urgent report requests/consults. Also includes OP P1/P2 checks (e.g., OP CT PE) — reported by rad performing the check if stat/ACI conversion required; if conversion not immediate and case already assigned to CT B list, read by Rad of the Day on trade-back model.
	12:00-15:59		CT ACI PM CV/MH	May include ER/IP CT/XR rad checks, protocol checks, urgent report requests/consults. Also includes OP P1/P2 checks (e.g., OP CT PE) — reported by rad performing the check if stat/ACI conversion required; if conversion not immediate and case already assigned to CT B list, read by Rad of the Day on trade-back model.
Fluoro CV	AM + PM Cases	Mon after Stat Fri	CV OB + FLUORO AM/PM	Only includes fluoro cases performed by/under the rad assigned to the site-specified FL suite. FL cases performed by other services reported with OP or ACI XR as per worklist.
Fluoro MH	AM Cases	Mon after Stat Fri	MH FLUORO AM	Only includes fluoro cases performed by/under the rad assigned to the site-specified FL suite. FL cases performed by other services reported with OP or ACI XR as per worklist.
	PM Cases		MH FLUORO PM	Only includes fluoro cases performed by/under the rad assigned to the site-specified FL suite. FL cases performed by other services reported with OP or ACI XR as per worklist.
Fluoro QHC	AM + PM Cases	Mon after Stat Fri	QHC General Imaging	Only includes fluoro cases performed by/under the rad assigned to the site-specified FL suite. FL cases performed by other services reported with OP or ACI XR as per worklist.
High Risk OB	AM + PM Cases	Mon after Stat Fri	CV OB + FLUORO AM/PM	
Mammo Screening THP	Prev Day/As per Assignment	Mon after Stat Fri	CV Breast Imaging	
			QHC Breast Imaging	Assigned previous workday across sites (current day if IP/ER cases)
MRI breast + associated mammos	Assigned	Mon after Stat Fri	MRI Breast	All cases done Thu-Fri (inclusive) at both C and Q
MRI Checks/Questions	08:00 -16:00	Mon after Stat Fri	THP MRI ACI	May include OP/ER/IP rad checks, protocol checks. (Urgent OP report requests, second opinion reports/ consults go to Rad of The Day)
MRI ED/IP	Prev Day 14:30 - Current Day 14:29	Mon after Stat Fri	THP MRI ACI	
MRI ED/IP Protocols routed to rad	Prev Day 15:30 - Current Day 15:29	Mon after Stat Fri	THP MRI ACI	
MRI M#	As per Assignment (See note in LB)	Mon after Stat Fri	MRI OP	Time cut-off is by START TIME (NOT Unread Time); Protocols as assigned, including stray protocols from prior shifts
NUCS AM	Assigned (Includes Prev Day Non-urgent IP after 15:45)	Mon after Stat Fri	THP NUCS AM	If assigned weekend/ Stat Day cases, Monday/post-stat day rad to divide equally amongst M,T, W THP Nucs AM Rads
NUCS Cardiology	Rad will be contacted by the cardiologist to co-read cases	Mon after Stat Fri	THP NUCS PM	
NUCS PM	Assigned	Mon after Stat Fri	THP NUCS PM	If assigned weekend cases,Monday/ post-stat rad to divide equally amongst M,T, W THP Nucs PM Rads
Outpatient related inquiries	08:00 -16:00	Mon after Stat Fri	RAD OF THE DAY	Includes: Clinician rad discussion request, clerical questions, technologist questions, image checks for OP CT/US except P2 OP CT (which goes to CT ACI). (Biopsy protocolling part of UsBx rotations.)
Prostate MRI fusion Bx Consults		Mon after Stat Fri	RAD OF THE DAY	Can be swapped to a prostate MRI rad like all other workload swaps if required
RAD ON SITE AM + PM CV	08:00-16:00	Mon after Stat Fri	CV OB + FLUORO AM/PM	Responsibilities include: On site coverage of contrast reactions; US marking (if US BX rad not available); any other issue requiring onsite rad presence
RAD ON SITE AM MH	08:00-11:59	Mon after Stat Fri	MH FLUORO AM	Responsibilities include: On site coverage of contrast reactions; US marking (if US BX rad not available); any other issue requiring onsite rad presence
RAD ON SITE AM QHC	08:00-12:00	Mon after Stat Fri	QHC Breast Imaging	Responsibilities include: On site coverage of contrast reactions; US marking; any other issue requiring onsite rad presence
RAD ON SITE PM MH	12:00-16:00	Mon after Stat Fri	MH FLUORO PM	Responsibilities include: On site coverage of contrast reactions; US marking (if US BX rad not available); any other issue requiring onsite rad presence
RAD ON SITE PM QHC	12:00-16:00	Mon after Stat Fri	QHC General Imaging	Responsibilities include: On site coverage of contrast reactions; US marking; any other issue requiring onsite rad presence

**For shifts with protocols, the expectation is that protocols are completed during the shift (ideally at the start of the shift prior to CT/MR reporting).*

**Radiologists are responsible to assign any cases to their personal worklist which are not reported by the end of the shift.*
