

**For shifts with protocols, the expectation is that protocols are completed during the shift (ideally at the start of the shift prior to CT/MR reporting).*

**Radiologists are responsible to assign any cases to their personal worklist which are not reported by the end of the shift.*

THP ROTATIONS — TUES AFTER STAT MON					
Rotation	Day of Week	TASK	UNREAD TIME	WORKLIST	COMMENTS
CT ACI AM CV/MH	Tues after Stat Mon	CT all other including CTA H/N except hyperacute stroke for respective site	8AM - 11:45AM	CVH/MH ACI CT Weekday	Includes outpt urgent (mainly PE studies). Studies performed after 07:00AM (unread time) are the responsibility of the ACI rad, unless contacted by the referring MD prior to 07:59AM in which case, the overnight/early am rad is responsible for providing a final report.
		CT ED/IP HRL (tagged to HRL) prelims for respective site	8AM - 11:45AM	CVH/MH ACI CT Weekday	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of rad assigned to CT HRL the upcoming Thursday. Tag to CT HRL if not already tagged.
		CT ED/IP Protocol	8AM - 11:59AM	EPIC	For respective site; clear up to end of shift
		CT ED/IP VIR Run off and aortic cases with endografts (tagged to VIR) prelims for respective site	8AM - 11:45AM	CVH/MH ACI CT Weekday	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of VIR rad (Final to be issued no later than 17:00). VIR rad available for backup (no tradeback). Aortic cases without an endograft are responsibility of diagnostic rads irrespective of how tagged.
		CT Head	Prev Day 22:00 to Current Day 11:45AM	CVH/MH ACI CT Weekday	
		CT IP (except CT Heads) before 8AM final reports for respective site	Prev Day 19:00 - Current Day 07:59AM	CVH/MH ACI CT Weekday	Late/Overnight/Early rad responsible for providing a prelim. Final reports responsibility of ACI-AM rad.
		CTA Hyperacute Stroke for respective site	8AM -11:59AM (Start Time)	CVH/MH ACI CT Weekday	Responsible if exam begins prior to shift end (unread time will be > end of shift) unless responsibility verbally handed over rad to rad. Verbal report must be provided to physician +/- prelim in FFI"
		ER/IP Consultations	8AM-11:59AM	Upon Request for respective site	Consults may include ER/IP CT and XR rad checks, protocol checks, urgent report requests/ consults
CT ACI PM CV/MH	Tues after Stat Mon	XR ACI Overnight for respective site	Prev Day 20:00 - 11:59PM (Midnight)	CVH ACI Xray/ MH ACI Xray	
		CT all other including CT Head and CTA H/N (except hyperacute stroke for respective site)	11:46AM - 15:45	CVH/MH ACI CT Weekday	Excluding breast cases
		CT ED/IP HRL (tagged to HRL) prelims for respective site	11:46AM - 15:45	CVH/MH ACI CT Weekday	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of rad assigned to CT HRL the upcoming Thursday. Tag to CT HRL if not already tagged.
		CT ED/IP Protocol	12:00PM-15:59	EPIC	For respective site; clear up to end of shift
		CT ED/IP VIR Run off and aortic cases with endografts (tagged to VIR) prelims for respective site	11:46AM - 15:45	CVH/MH ACI CT Weekday	ACI Rad is responsible for providing a prelim report addressing acute issues. Final report is responsibility of VIR rad (Final to be issued no later than 17:00). VIR rad available for backup (no tradeback). Aortic cases without an endograft are responsibility of diagnostic rads irrespective of how tagged.
CT OP B#	Tues after Stat Mon	CTA Hyperacute Stroke for respective site	12PM -15:59 (Start Time)	CVH/MH ACI CT Weekday	Responsible if exam begins prior to shift end (unread time will be > end of shift) unless responsibility verbally handed over rad to rad. Verbal report must be provided to physician +/- prelim in FFI"
		ER/IP Consultations	12PM-15:59	Upon Request for respective site	Consults may include ER/IP CT and XR rad checks, protocol checks, urgent report requests/ consults
MRI Breast Biopsy	Tues after Stat Mon	CT B#	Prev Fri to End of Stat Mon	CT B#	Protocols as assigned, including stray protocols from prior shifts
MRI OP	Tues after Stat Mon	MRI breast biopsies	Assigned	Assigned	Paired with half B or M. Occurs q2 weeks, except after long weekend
MRI OP	Tues after Stat Mon	MRI M#	As per Assignment (See note in LB)	MRI M#	Time cut-off is by START TIME (NOT Unread Time); Protocols as assigned, including stray protocols from prior shifts
THP NUCS AM	Tues after Stat Mon	BMD	Assigned	Assigned/ THP BMD	
		NUCS AM	Assigned (Includes Prev Day Non-urgent IP after 15:45)	Assigned/ THP Nuclear Medicine	If assigned weekend/ Stat Day cases, Monday/post-stat day rad to divide equally amongst M,T, W THP Nucs AM Rads
		US ACI THP	Current Day 7AM-11:45AM	THP ACI US	Also includes QHC cases tagged as ACI
		US ED/IP questions	8:00AM -12PM	Upon Request	Includes all ED/IP US checks and consults
THP NUCS PM	Tues after Stat Mon	B or M Half List		CT B#	
		BMD	Assigned	Assigned/ THP BMD	
		NUCS Cardiology	Rad will be contacted by the cardiologist to co-read cases		
		NUCS PM	Assigned	Assigned/ THP Nuclear Medicine	If assigned weekend cases,Monday/ post-stat rad to divide equally amongst M,T, W THP Nucs PM Rads
		XR OP CVH/MH	Current Day 9AM-11:45AM	CVH/MH OP Xray	

**For shifts with protocols, the expectation is that protocols are completed during the shift (ideally at the start of the shift prior to CT/MR reporting).*

**Radiologists are responsible to assign any cases to their personal worklist which are not reported by the end of the shift.*

THP ROTATIONS — TUES AFTER STAT MON					
Rotation	Day of Week	TASK	UNREAD TIME	WORKLIST	COMMENTS
